

## “ECOLOGY AND SUSTAINABLE TRANSPORT”

A workshop called “Ecology and sustainable transport” took place at Tashkent State Transport University On 20<sup>th</sup> of September, 2024. Around 100 students and 15 professors participated this workshop also representatives from Ministry of transport were invited to this meeting.

Problems about environment pollution by transport and ways to solve this problem were discussed during the workshop.

Manager of Erasmus+ project “Sustainable Transportation within the Framework of Green Deal – SPHERE” Dr. Shaukat Khakimov from Tashkent State Transport University made a speech about ongoing project. He gave detailed information about objectives, plans of the project. He mentioned that this project will serve to train personnel for providing and developing the sustainable transport in Uzbekistan. He told about preparation measures to establish bachelor degree program “Sustainable transport” at TSTU in the next year. He also told that a curriculum for mentioned above degree program has been developing with the help of project partners from European universities. Execution of such kind of projects one of the steps to provide sustainable transport.
